

The World's Lightest Sander!

The all new Intex Giraffe® GHOST™ Drywall Sander.

Intex

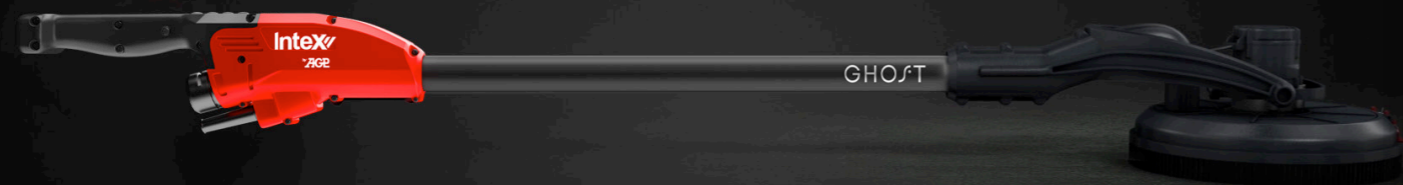

Giraffe
GHOST™

Lightest Ever!

2.8kg (6.17lbs)

20% lighter than any other Drywall Sander.

A decade of development and a determined focus on ergonomics have resulted in the lightest Drywall Power Sander in the world. This unique machine features benefits like no other Drywall Sander and is designed to satisfy the most demanding professionals.

Code	AGHOST
Voltage	100-240V ~ 50-60Hz
Power Input	430W
No-Load-Speed	1000 - 1600 RPM
Sanding Head	Ø 215mm
Sanding Disc	Ø 225mm
Unit Weight	2.8kg (6.17lbs)
Unit Dimensions	1430 x 254 x 157mm

Brushless Motor Technology

Highly efficient motor significantly reduces weight and provides maintenance-free operation, eliminating downtime, parts and service costs.

Why go Brushless?

Carbon brushes are a wearing part and need to be replaced regularly on typical Drywall Sanders. Each pair of carbon brushes costs approximately \$30.00 excluding downtime and service costs. The highly efficient AGHOST™ motor eliminates carbon brushes altogether...that alone is a several hundred dollar saving per year!

Durable Design

Impact-resistant construction built tough for the most demanding work site conditions.

What's the advantage of Direct Drive Motors?

Drive shaft cable breakage is common on typical Drywall Sanders due to excessive pressure applied to the sanding surface whilst in operation. Each cable and housing replacement costs approximately \$120.00 excluding downtime and service costs. The AGHOST™ eliminates all cable breakages...that alone is a several hundred dollar saving per year!

World's Lightest Drywall Sander

Ultra-lightweight design of just 2.8kg (6.17lbs) is almost 1kg lighter than any other Drywall Sander brand, significantly reducing the effects of fatigue and RSI.

Reaching Greater Heights

MegaGrip® handle securely fits to the GHOST™ handle, providing a further 600mm reach, limiting the need for stilts and scaffolding in almost any situation.

Perfection from any Angle.

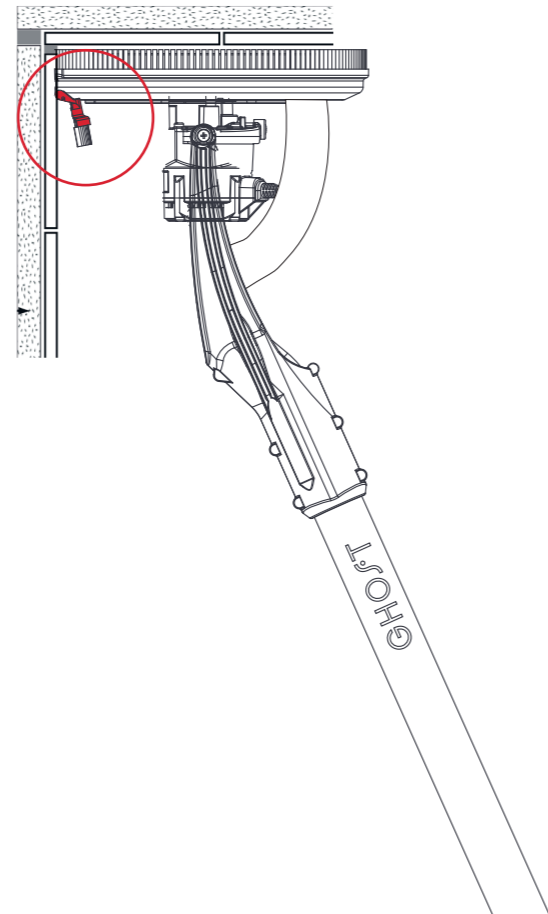

180° Flexibility, 100% Comfort.

Giraffe
GHOST™

Unique Corner Sanding

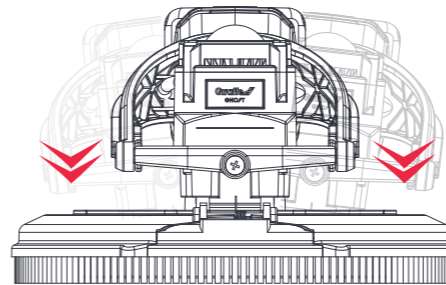

Sander head features a half-moon hinged square edge which can be opened and rotated to any degree, accurately and efficiently sanding right into corners.

Tension-Free Sanding Head

Unique direct drive motor eliminates tension, allowing the head to effortlessly conform to surface position with 45° lateral and 90° longitudinal movements, eliminating surface gouging and providing maximum sanding efficiency. Fitted suspension springs 'ride the wall' and reduces effects of fatigue and RSI.

45° Lateral Tilt

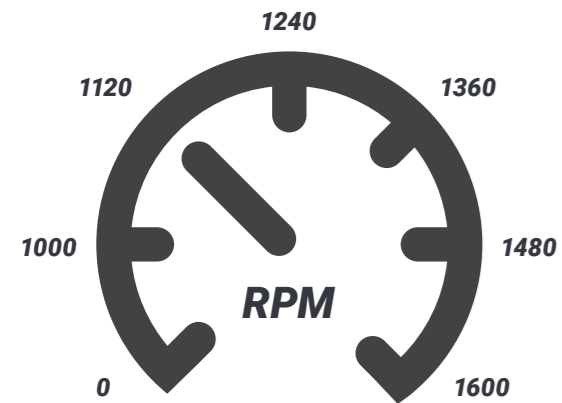

90° Longitudinal Angle

Constant Speed Electronics.

6 Speed Setting.

6 Variable Speed Control Panel

Digital dial pad provides 6 rotational speed adjustments for speed sensitive applications i.e. higher for more aggressive work and lower for finer applications such as in-between coat sanding. Pre-programmed soft start-up electronics eliminate swirl marks and gouging.

Tuned Electronics

Intex starmix® Dust Extractor powers on/off automatically when the Intex Giraffe® GHOST™ is switched on/off. Lockable power switch enables cruise control for continuous use.

Superior Extraction Technology

Industrial Grade dust extraction system efficiently removes dust whilst being generated.

Heavy Duty Storage

Sniper bag fitted with hand and shoulder straps stows the GHOST™ and keeps the hose and accessories tidy. Impact-resistant nylon lining with polyester stitching and foam padded core is built tough for the most demanding work site conditions.

Contents

- Giraffe® GHOST™ Drywall Sander
- H/D Vacuum Hose - 4.3m
- Velcro Interface Pad
- 6mm L-Hex Key
- H/D Cushioned Carry Bag
- Operation Manual

The Intex Giraffe® Dustless Sander, teamed with the starmix® Dust Extractor & Useit® SuperPads, forms the most trusted sanding solution for drywallers all around the world!

Complete the System

Giraffe Drywall Sander **Useit** Just Super Pads **starmix** Dust Extractors
