

SECT	SECTION 1: IDENTIFICATION					
1.1	Product identifier:	TIMBAGLAZE				
		Not a hazardous substance				
	CAS:	Non-applicable				
	Other means of identification:					
	Non-applicable					
1.2	Recommended uses and any restric	ctions on use or supply:				
	Relevant uses: Adhesive for construction					
	Uses advised against: All uses not speci	fied in this section or in section 7.3				
1.3	Supplier's details: www.timbabuildnz.com					
	Timbabuild NZ Ltd ( Distributor) / (Unit 3	) 6 Hoffs place, Kenepuru,				
	Porirua, 5022					
	Email. timbabuildnz@gmail.com					
1.4	Emergency phone number: Emerge	ncy Tel. 0800 222 214				

# SECTION 2: HAZARD IDENTIFICATION

# 2.1 Classification of the substance or mixture: Hazardous Substances (Hazard Classification) Notice 2020.: This product was classified in accordance with Hazardous Substances (Hazard Classification) Notice 2020. Skin Sens. 1B: Sensitisation, skin, Category 1B, H317 2.2 Label elements, including precautionary statements:

Hazardous Substances (Hazard Classification) Notice 2020.: Warning

#### Hazard statements:

H317 - May cause an allergic skin reaction.

# Precautionary statements:

P101: If medical advice is needed, have product container or label at hand.

P102: Keep out of reach of children.

- P261: Avoid breathing dust/fume/gas/mist/vapours/spray.
- P272: Contaminated work clothing should not be allowed out of the workplace.
- P280: Wear protective gloves/protective clothing/respiratory protection/eye protection/protective footwear.
- P302+P352: IF ON SKIN: Wash with plenty of soap and water.

P333+P313: If skin irritation or rash occurs: Get medical advice/attention.

P501: Dispose of contents and / or their container according to the separated collection system used in your municipality.

#### Substances that contribute to the classification

Trimethoxyvinylsilane (1-3 %)

Additional labeling:

Read label before use

#### 2.3 Other hazards which do not result in classification:

Non-applicable

# SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substances:

Chemical description: Not defined Components:

CONTINUED ON NEXT PAGE

# SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS (continued)

In accordance with Part B: Concentration cut-offs for ingredients in mixtures for purpose of section 3 of Consolidated Hazardous Substances (Safety Data Sheets) Notice 2017, the product contains:

	Identification	Chemical name/Classification		
CAS:	2768-02-7	Trimethoxyvinylsilane	1-3 %	
		Acute Tox. 4: H332; Flam. Liq. 3: H226; Skin Sens. 1B: H317 - Warning	1-3 70	
To ob	tain more informat	tion on the hazards of the substances consult sections 11, 12 and 16		

To obtain more information on the hazards of the substances consult sections 11, 12 and 16.

#### 3.2 Mixtures:

Non-applicable

# SECTION 4: FIRST-AID MEASURES

### 4.1 First aid instructions according to each relevant route of exposure;:

The symptoms resulting from intoxication can appear after exposure, therefore, in case of doubt, seek medical attention for direct exposure to the chemical product or persistent discomfort, showing the SDS of this product.

# By inhalation:

This product is not classified as hazardous through inhalation, however, it is recommended in case of intoxication symptoms to remove the person affected from the area of exposure, provide clean air and keep at rest. Request medical attention if symptoms persist.

#### By skin contact:

May cause an allergic skin reaction. In case of contact it is recommended to clean the affected area thoroughly with water and neutral soap. In case of changes on the skin (stinging, redness, rashes, blisters,...), seek medical advice with this Safety Data Sheet

#### By eye contact:

This product does not contain substances classified as hazardous for eye contact. Rinse eyes thoroughly for at least 15 minutes with lukewarm water, ensuring that the person affected does not rub or close their eyes.

# By ingestion/aspiration:

In case of consumption, seek immediate medical assistance showing the SDS of this product.

- 4.2 Most important symptoms and effects, acute and delayed:
  - Acute and delayed effects are indicated in sections 2 and 11.

#### 4.3 Indication of medical attention and its urgency:

Non-applicable

# SECTION 5: FIRE-FIGHTING MEASURES

#### 5.1 Information on the appropriate type of extinguishers or fire-fighting agents:

#### Appropriate type of extinguishers or fire-fighting agents:

Product is non-flammable under normal conditions of storage, manipulation and use, but the product contains flammable substances. In the case of inflammation as a result of improper manipulation, storage or use preferably use polyvalent powder extinguishers (ABC powder), in accordance with the Regulation on fire protection systems.

# Inappropriate type of extinguishers or fire-fighting agents:

IT IS RECOMMENDED NOT to use full jet water as an extinguishing agent.

### 5.2 Advice on specific hazards that may arise from the substance:

As a result of combustion or thermal decomposition reactive sub-products are created that can become highly toxic and, consequently, can present a serious health risk.

# 5.3 Special protective equipment and precautions for fire-fighters:

Depending on the magnitude of the fire it may be necessary to use full protective clothing and individual respiratory equipment. Minimum emergency facilities and equipment should be available (fire blankets, portable first aid kit,...) Additional provisions:

Act in accordance with the Internal Emergency Plan and the Information Sheets on actions to take after an accident or other emergencies. Destroy any source of ignition. In case of fire, refrigerate the storage containers and tanks for products susceptible to inflammation, explosion or BLEVE as a result of high temperatures. Avoid spillage of the products used to extinguish the fire into an aqueous medium.

### SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures:

#### For non-emergency personnel:

Sweep up and shovel product or other means and place in container for reuse (preferred) or disposal

#### For emergency responders:

Wear protective equipment. Keep unprotected persons away. See section 8.

### 6.2 Environmental precautions from accidental spills and release;:

This product is not classified as hazardous to the environment. Keep product away from drains, surface and underground water.

# 6.3 Advice on how to contain and clean up a spill or release:

It is recommended:

Sweep up and shovel product or other means and place in container for reuse (preferred) or disposal

## 6.4 Reference to other sections:

See sections 8 and 13.

# SECTION 7: HANDLING AND STORAGE

# 7.1 Precautions for safe handling:

A.- General precautions for safe use

Comply with the current legislation concerning the prevention of industrial risks with regards manually handling weights. Maintain order, cleanliness and dispose of using safe methods (section 6).

- B.- Technical recommendations for the prevention of fires and explosions
  - Due to its non-flammable nature, the product does not present a fire risk under normal conditions of storage, manipulation and use.
- C.- Technical recommendations on general occupational hygiene
  - Do not eat or drink during the process, washing hands afterwards with suitable cleaning products.
- D.- Technical recommendations to prevent environmental risks

It is recommended to have absorbent material available at close proximity to the product (See subsection 6.3)

# 7.2 Conditions for safe storage, including any incompatibilities:

A.- Technical measures for storage

Minimum Temp.:	5 °C
Maximum Temp.:	30 °C

B.- General conditions for storage

Avoid sources of heat, radiation, static electricity and contact with food. For additional information see subsection 10.5

# 7.3 Specific end use(s):

Except for the instructions already specified it is not necessary to provide any special recommendation regarding the uses of this product.

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

# 8.1 Occupational exposure limits:

Substances whose workplace exposure standards (WES) have to be monitored in the work environment:

Particulates not otherwise classified: TWA = 10 mg/m3 // TWA (respirable) = 3 mg/m3

## 8.2 Engineering controls:

A.- Identification of the specific types of personal protective equipment

As a preventative measure it is recommended to use basic Personal Protection Equipment. For more information on Personal Protection Equipment (storage, use, cleaning, maintenance, class of protection,...) consult the information leaflet provided by the manufacturer. For more information see subsection 7.1.

All information contained herein is a recommendation which needs some specification from the labour risk prevention services as it is not known whether the company has additional measures at its disposal.

B.- Respiratory protection

# Safety data sheet According to Consolidated Hazardous Substances (Safety Data Sheets) Notice 2017

# TIMBAGLAZE

#### SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION (continued) Pictogram PPE Remarks Replace when there is a taste or smell of the contaminant inside the face mask. If the contaminant comes with warnings it is recommended to use isolation Filter mask for gases and vapours equipment. Mandatory respiratory tract protection C.- Specific protection for the hands Pictogram PPE Remarks Chemical protective gloves (Material: Butyl, Breakthrough time: > 480 min, Thickness: 0.7 Replace the gloves at any sign of deterioration. mm) Mandatory hand protection D.- Eye and face protection Pictogram PPE Remarks Clean daily and disinfect periodically according to the manufacturer's instructions. Panoramic glasses against splash/projections. Use if there is a risk of splashing. Mandatory face protection E.- Bodily protection Pictogram PPE Remarks Work clothing Replace before any evidence of deterioration. Anti-slip work shoes Replace before any evidence of deterioration. F.- Additional emergency measures Standards Standards Emergency measure Emergency measure ANSI Z358-1 DIN 12 899 ISO 3864-1:2011, ISO 3864-4:2011 ISO 3864-1:2011, ISO 3864-4:2011 Emergency shower Eyewash stations **Environmental exposure controls:** In accordance with the community legislation for the protection of the environment it is recommended to avoid environmental spillage of both the product and its container. For additional information see subsection 7.1.D SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES 9.1 Information on basic physical and chemical properties: For complete information see the product datasheet. **Appearance:** Physical state at 20 °C: Solid Appearance: Paste Colour: Black Odour: Characteristic

# SECTION 10: STABILITY AND REACTIVITY

# 10.1 Chemical reactivity:

No hazardous reactions are expected because the product is stable under recommended storage conditions. See section 7.

# 10.2 Chemical stability:

# SECTION 10: STABILITY AND REACTIVITY (continued)

Chemically stable under the indicated conditions of storage, handling and use.

### **10.3** Possibility of hazardous reactions:

Under the specified conditions, hazardous reactions that lead to excessive temperatures or pressure are not expected.

#### 10.4 List of conditions to avoid or prevent a hazardous situation:

Applicable for handling and storage at room temperature:

Shock and friction Contact with air I		Increase in temperature	Sunlight	Humidity
Not applicable	Not applicable	Precaution	Precaution	Not applicable

#### **10.5** Information on incompatible substances or materials:

Acids Water		Oxidising materials	Combustible materials	Others	
Avoid strong acids	Not applicable	Avoid direct impact	Not applicable	Avoid alkalis or strong bases	

#### 10.6 Information on hazardous decomposition products:

See subsection 10.3, 10.4 and 10.5 to find out the specific decomposition products. Depending on the decomposition conditions, complex mixtures of chemical substances can be released: carbon dioxide ( $CO_2$ ), carbon monoxide and other organic compounds.

## SECTION 11: TOXICOLOGICAL INFORMATION

#### 11.1 Information on toxicological effects:

The experimental information related to the toxicological properties of the product itself is not available

#### Dangerous health implications:

In case of exposure that is repetitive, prolonged or at concentrations higher than recommended by the occupational exposure limits, it may result in adverse effects on health depending on the means of exposure:

A- Ingestion (acute effect):

- Acute toxicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for consumption. For more information see section 3

- Corrosivity/Irritability: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

B- Inhalation (acute effect):

Based on available data, the classification criteria are not met. However, it contains substances classified as hazardous for inhalation. For more information see section 3.

- Acute toxicity : Based on available data, the classification criteria are not met, as it does not contain substances classified
- as hazardous for this effect. For more information see section 3.
- Corrosivity/Irritability:
- C- Contact with the skin and the eyes (acute effect):
  - Contact with the skin: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for skin contact. For more information see section 3.

- Contact with the eyes: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

- D- CMR effects (carcinogenicity, mutagenicity and toxicity to reproduction):
  - Carcinogenicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for the effects mentioned. For more information see section 3.

- Mutagenicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

- Reproductive toxicity: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

- E- Sensitizing effects:
  - Respiratory: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous with sensitising effects. For more information see section 3.
  - · Skin: Prolonged contact with the skin can result in episodes of allergic contact dermatitis.
- F- Specific target organ toxicity (STOT) single exposure:

Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

G- Specific target organ toxicity (STOT)-repeated exposure:

### SECTION 11: TOXICOLOGICAL INFORMATION (continued)

- Specific target organ toxicity (STOT)-repeated exposure: Based on available data, the classification criteria are not met, as
- it does not contain substances classified as hazardous for this effect. For more information see section 3.
- Skin: Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.
- H- Aspiration hazard:

Based on available data, the classification criteria are not met, as it does not contain substances classified as hazardous for this effect. For more information see section 3.

# **Other information:**

Non-applicable

# Specific toxicology information on the substances:

Identification	Acute toxicity		Genus
Trimethoxyvinylsilane	LD50 oral	7236 mg/kg	Rat
CAS: 2768-02-7	LD50 dermal	3880 mg/kg	Rabbit
	LC50 inhalation	>20 mg/L	

# SECTION 12: ECOLOGICAL INFORMATION

The experimental information related to the eco-toxicological properties of the product itself is not available

### 12.1 Ecotoxicity (aquatic and terrestrial):

#### Acute toxicity:

Identification		Concentration	Species	Genus
Trimethoxyvinylsilane	LC50	191 mg/L (96 h)	Oncorhynchus mykiss	Fish
CAS: 2768-02-7		167 mg/L (48 h)	Daphnia magna	Crustacean
	EC50	957 mg/L (72 h)	N/A	Algae

#### Chronic toxicity:

Identification		Concentration	Species	Genus
Trimethoxyvinylsilane	NOEC	Non-applicable		
CAS: 2768-02-7	NOEC	28.1 mg/L	Daphnia magna	Crustacean

# 12.2 Persistence and degradability:

# Substance-specific information:

Identification	Degradability		Biodegradability	
Trimethoxyvinylsilane	BOD5	Non-applicable	Concentration	104 mg/L
CAS: 2768-02-7	COD	Non-applicable	Period	28 days
	BOD5/COD	Non-applicable	% Biodegradable	51 %

## 12.3 Potential to be bioaccumulative:

Not available

- 12.4 Mobility in soil:
  - Not available
- 12.5 Results of PBT and vPvB assessment: Non-applicable

# 12.6 Other adverse effects:

Not described

# SECTION 13: DISPOSAL CONSIDERATIONS

#### 13.1 Appropriate and achievable disposal methods:

#### Special precautions to be taken during disposal:

Consult the authorized waste service manager on the assessment and disposal operations. In case the container has been in direct contact with the product, it will be processed the same way as the actual product. Otherwise, it will be processed as non-dangerous residue. Waste should not be disposed of to drains. See epigraph 6.2.

# Safety data sheet According to Consolidated Hazardous Substances (Safety Data Sheets) Notice 2017

# TIMBAGLAZE

# SECTION 13: DISPOSAL CONSIDERATIONS (continued)

#### **Regulations related to waste management:**

Legislation related to waste management:

Consolidated Imports and Exports (Restrictions) Prohibition Order (No 2) 2004 Consolidated Hazardous Substances (Disposal) Notice 2017

# SECTION 14: TRANSPORT INFORMATION

This product is not regulated for transport.

#### SECTION 15: REGULATORY INFORMATION

#### **15.1** Safety, health and environmental regulations specific for the product in question:

- Substances listed in the Montreal Protocol: Non-applicable
- Substances listed in the Rotterdam Convention: Non-applicable
- Substances listed in the Stockholm Convention: Non-applicable

#### Specific provisions in terms of protecting people or the environment:

It is recommended to use the information included in this safety data sheet as data used in a risk evaluation of the local circumstances in order to establish the necessary risk prevention measures for the manipulation, use, storage and disposal of this product.

#### Relevant regulatory requirements:

Health and Safety at Work (Hazardous Substances) Regulations 2017 Health and Safety at Work Act 2015 Consolidated Hazardous Substances (Labelling) Notice 2017 Consolidated Hazardous Substances (Packaging) Notice 2017 Consolidated Hazardous Substances (Hazardous Property Controls) Notice 2017 Consolidated Hazardous Substances (Importers and Manufacturers) Notice 2015 HSNO: HSR002670 Surface Coatings and Colourants (subsidiary Hazard) Group Standard 2020

# SECTION 16: OTHER INFORMATION

### Legislation related to safety data sheets:

This safety data sheet has been designed in accordance with Schedule: Content and format of safety data sheets (clause 7) of Consolidated Hazardous Substances (Safety Data Sheets) Notice 2017

#### Texts of the legislative phrases mentioned in section 2:

H317: May cause an allergic skin reaction.

#### Texts of the legislative phrases mentioned in section 3:

The phrases indicated do not refer to the product itself; they are present merely for informative purposes and refer to the individual components which appear in section 3

#### Hazardous Substances (Hazard Classification) Notice 2020.:

Acute Tox. 4: H332 - Harmful if inhaled.

Flam. Liq. 3: H226 - Flammable liquid and vapour.

Skin Sens. 1B: H317 - May cause an allergic skin reaction.

#### Advice related to training:

Minimal training is recommended to prevent industrial risks for staff using this product, in order to facilitate their comprehension and interpretation of this safety data sheet, as well as the label on the product.

SECTION 16: OTHER INFORMATION (continued)

The information contained in this safety data sheet is based on sources, technical knowledge and current legislation, without being able to guarantee its accuracy. This information cannot be considered a guarantee of the properties of the product, it is simply a description of the security requirements. The occupational methodology and conditions for users of this product are not within our awareness or control, and it is ultimately the responsibility of the user to take the necessary measures to obtain the legal requirements concerning the manipulation, storage, use and disposal of chemical products. The information on this safety data sheet only refers to this product, which should not be used for needs other than those specified.

END OF SAFETY DATA SHEET
